

## QUESTIONS FOR LIFE GROUPS AND PERSONAL REFLECTION:

1. Evidence abounds for a creator. Life on earth seems well “tuned” for life. Why is it important to connect a “creator” or “designer” with the God of the Bible, rather than just “a” creator/designer?
2. Read Romans 1:20-23. How does creation hold people accountable to a Creator? Why does the world seem to resist the idea of a Creator, especially the God of the Bible?
3. Read 2 Peter 3:3-7. This passage says that scoffers will come in the last day scoffing a Special Creation and the judgement of the Worldwide Flood. In what ways does culture war against these two truths of the Bible?
4. Today's youth are being saturated by the world's teaching that in many ways is anti-creation, anti-god, and certainly anti-Bible. How can we strengthen our families and each other to maintain a strong faith and Biblical worldview?
5. God is omniscient (all knowing) and omnipresent (present everywhere at once). How do you think this factored into the writers who recorded Genesis?
